

## GROUP POLICY BOONE COMENOR METALIMPEX 2021-2023

For 120 years, BOONE COMENOR METALIMPEX, present in 4 continents and now part of the SUEZ Group, has recycled resources worldwide, thus fitting in with life cycle of metallic raw materials.

Privileged partner of production sites, our mission concentrates on the needs of our clients to provide manufacturers with the most appropriate solutions in the management of their waste:

- by supplying to them quality services which contribute to a sustainable management of natural resources,
- by preparing and recovering ferrous and non-ferrous metal for recycling
- while providing all parties (internal and external) a safe working environment conducive to their own development,
- by promoting diversity,
- And by preventing impact on the environment

BOONE COMENOR METALIMPEX, manages its business based on standards ISO 9001 and ISO 14001 and reinforce its commitment to:

**Continuously improve our activities and processes to meet the requirements of our stakeholders, while protecting the environment and preventing injuries and illness  
Advance our organizational culture and operational methods to continue our development by:**

- o Establishing practical and lasting methods for keeping knowledge and sharing best practices between our teams in all parts of our business and our group
- o Reducing our environmental footprint
- o Committing to fulfill the compliance obligations.

The achievement of its objectives will ensure the sustainability of the company while maintaining its dynamism

All employees are involved in the implementation of this policy by contributing to its success through their actions and suggestions

This policy provides a framework for regularly reviewing the company's performance through the setting of annual targets, and for continuous improvement..

On April 30, 2021

Laurent BOONE  
Directeur Général
